

Nick Gleason
Jessie Aniguid
Jacob Thompson

This game uses UDP to transfer data between a PD patch and the unity game.

To play, open the pd patch MasterSoundUDP.pd and open the unity project. It will automatically listen for unity and turn DSP on.

In the game, use the arrow keys to move and jump, and use the space bar to shoot.

Touching an enemy or falling off will kill the player. Restart the game to play again.
